**REMARKS**

On December 20, 2005, the undersigned received a telephone call from Examiner Kianni requesting authorization to cancel claim 12 by Examiner's Amendment because the remaining claims were in condition for allowance. Claim 12 was directed to a non-elected invention subject to the restriction requirement dated January 12, 2005. After authorizing cancellation of claim 12 by Examiner's Amendment, it was brought to the undersigned's attention that the amendment to the Abstract filed October 11, 2005 was filed without a marked-up. Accordingly, attached is both a clean version and a marked-up version of the amended Abstract. No new matter was entered, or is presently entered.

If there are any further questions, it is requested that the undersigned be contacted as soon as possible.

Respectfully submitted,

BUCHANAN INGERSOLL PC
